

# A&J Pharma Ltd.

## Evergreen Assessment Plan

### 1. Introduction

A&J Pharma Ltd. is committed to maintaining sustainable and environmentally responsible operations. The Evergreen Assessment Plan ensures ongoing evaluation and improvement of our sustainability practices, compliance with regulatory standards, and continuous enhancement of our green initiatives.

### 2. Objectives

- Establish a framework for ongoing environmental and sustainability assessment.
- Identify key areas for improvement in operations, supply chain, and resource utilization.
- Foster a culture of environmental responsibility within the company.
- Ensure compliance with national and international sustainability regulations.

### 3. Key Assessment Areas

#### 3.1 Energy Consumption & Efficiency

- Regular monitoring of energy usage in all facilities.
- Implement energy-efficient practices, including LED lighting and automated systems.
- Increase reliance on renewable energy sources.

#### 3.2 Waste Management & Reduction

- Conduct periodic waste audits to minimize waste generation.
- Improve recycling and sustainable disposal practices.
- Promote circular economy initiatives in packaging and product lifecycle management.

#### 3.3 Sustainable Supply Chain Management

- Evaluate suppliers based on sustainability criteria.
- Encourage procurement of eco-friendly and ethically sourced materials.
- Implement responsible logistics and transportation strategies to reduce carbon footprint.

## 3.4 Water Conservation

- Monitor water usage and implement reduction strategies.
- Invest in water recycling and rainwater harvesting initiatives.
- Promote awareness and best practices among employees.

## 3.5 Employee & Stakeholder Engagement

- Conduct sustainability training and workshops.
- Encourage employee participation in green initiatives.
- Engage with stakeholders to align sustainability goals and strategies.

## 4. Monitoring & Reporting

- Conduct quarterly and annual assessments to measure progress.
- Report findings and improvement plans to stakeholders.
- Adapt strategies based on assessment results and emerging sustainability trends.

## 5. Continuous Improvement

- Stay updated with technological advancements in sustainability.
- Foster innovation in eco-friendly pharmaceutical practices.
- Regularly update policies to reflect best practices and regulatory changes.

The Evergreen Assessment Plan is a strategic approach to ensuring long-term sustainability at A&J Pharma Ltd. By regularly evaluating and refining our environmental practices, we strive to create a greener and more responsible future.
